TIDE TABLES FOR HALIFAX.

9

These Tide Tables, for Halifax, with tidal differences for other places, are supplied by the Tidal Survey Branch of the Department of Marine and Fisheries of the Dominion of Canada. They are based upon direct observations of the Tides obtained by means of self-registering gauges which are kept in continuous operation day and night throughout the year. The records are reduced by the latest methods of analysis, and the computation of the tables is made by Mr. E. Roberts, F. R. A. S., of the Nautical Almanac Office, London.

The Tidal differences, when applied to the Tide Tables, give the time of high and low water at other places in Standard Time. The differences applicable to the Halifax Tables are derived from the Establishments given in the Admiralty list. They will therefore be correct at full and change of the moon, and approximate only at other times in the month.

Dalhousie College and University.

* * STAFF. * *

The Staff consists of the President and nine Professors, besides eighteen lecturers in Arts, Science, Law, and eighteen examiners in Medicine. The session is eight months long, from September to the end of April. The average amount of fees per session is about thirty-four dollars.

* * COURSES. * *

Instruction is given in Arts, in Pure and Applied Science, in Law. The instruction given by the Halifax Medical College, (together with classes given in Dalhousie College), is recognized as qualifying for degrees in Medicine. For persons who do not wish to take a degree, short courses of instruction are provided. The course in Arts is largely elective, and is designed to meet the needs of students wishing to specialize, or to secure a broad general education, or to combine liberal with professional studies.

SCHOLARSHIPS.

The following scholarships, etc., are offered :—

At Junior Matriculation, six : four valued at forty, one at one hundred and twenty, and one at two hundred dollars.

At Senior Matriculation, two : one valued at forty, and the other at ninety dollars.

At the end of the Second Year :

The North British Bursary : value, one hundred and twenty dollars.

The Waverley Prize : value, about fifty dollars.

At Graduation :

The Sir Wm. Young Gold Medal : for Mathematics.

The University Medals : for all other departments.

The Avery Prize : for General Distinction, value, twenty-five dollars.

The 1851 Exhibition Scholarship : value, £300 ; for students in Science, awarded biennially.

[ESTABLISHED 1821.]

Mutual Principle.

MUTUAL Reserve Fund Life Association.

**IT LEADS WHERE
OTHERS FOLLOW.**

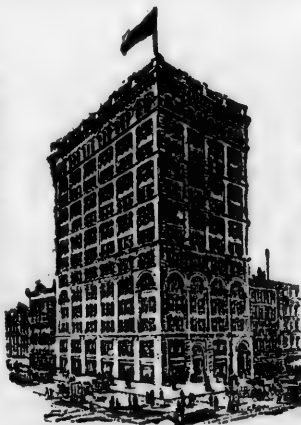

F. A. BURNHAM,
President.

The Motto of the Management is and will continue to be

**"Good Work at Honest Cost; True
Economy, and not its Shadow."**

Why you should insure in the Mutual Reserve.

Its new Policy, with rates about 40 per cent. below the Old System, contains all the essential features of Life Insurance viz: In case of total disability half the face of the policy will be paid, a cash surrender value or extended INSURANCE after five years, premiums reduced by dividends after the eleventh year. &c.

It has a record unparalleled in the history of Life Insurance.

It has been the best abused Company in the world by its competitors, because it has saved its policyholders nearly fifty million dollars they would have had to pay the Old Line System, and gives infinitely better security.

SUCCESS IS THE ART OF SUCCEEDING.

Insurance in force,	\$330,000,000
Amount held in Canada,	37,000,000
The largest amount with a single exception of any Company on any plan in the Dominion.	
Surplus over all Liabilities, over	\$ 4,000,000
Death Claims paid since organization, over	30,000,000

WEATHER GUIDE.

The following Table (the result of many years' actual observation) is ascribed to Dr. Herschel. It is constructed upon a due consideration of the attraction of the Sun and Moon in their several positions respecting the Earth, and serves to show what kind of weather will most probably follow the entrance of the Moon into any of her quarters :—

Moon.	Time of Change.	In Summer.	In Winter.
If New Moon, First Quarter, Full Moon, or Last Quarter, happens	Between midnight & 2 A. M.	Fair.	Hard Frost unless wind be S. or W.
	" 2 and 4 A. M.	Cold with showers.	Snow and stormy.
	" 4 " 6 "	Rain.	Stormy and rainy.
	" 6 " 8 "	Wind and rain.	Stormy.
	" 8 " 10 "	Variable.	Rain if wind W.
	" 10 " 12 "	Showery.	Snow if E.
	At 12 Noon, and to 2 P. M.	Very rainy.	Cold and high wind.
	Between 2 and 4 P. M.	Variable.	Snow or rain.
	" 4 " 6 "	Fair.	Fair and mild.
	" 6 " 8 "	Fair if wind be N. W.	Fair.
	" 8 " 10 "	Rainy if S. or S. W.	Frosty if wind N or N
	" 10 " midnight.	Ditto. Ditto.	E. Snow if S or S W
		Fair.	Ditto. Ditto.
			Fair and frosty.

The nearer midnight any of the Moon's changes occur, the finer will be the weather during the succeeding week ; the nearer noon any of those changes happen, the more foul and wet will be the weather that will follow.

Made on Main Signal Staff at Citadel Hill, when Vessels are seen from the Citadel or reported from Camperdown Signal Station.

The approach of all vessels is reported from the Lookout Station at Camperdown to the Signal Station at the Citadel, a man being on watch at either place day and night. These stations are connected by a Military Telephone line, and as the Citadel Station is connected to the Civil Exchange, information regarding any vessel can at any hour be obtained by subscribers on the Civil Exchange.

As soon as a vessel is perceived by the man on watch at Camperdown, he at once reports the fact to the Citadel, stating whether she is a steamer or a sailing vessel; if the former, she is signalled at the Citadel by a cross, (signifying unknown steamer) hoisted at the extremity of the upper yard, on the east side, if she is reported to be approaching from that quarter, on the west, if she is approaching from the other direction. This first report is usually made on first sighting the smoke of the steamer on the horizon; as she gets nearer, the man on watch observes whether she is a first class (or ocean going) steamer, or a second class (or coasting) steamer; if he reports her as first class, the cross is hauled down and replaced by a large ball, if second class by a small ball.

As soon as the identity of the steamer is ascertained her name is reported, and if she is a mail vessel the proper mail flag is hoisted half way out on the lower yard, while the house flag of her owners is hoisted on the private staff near by.

Should the vessel, however, be reported to be a man of war, or one of the Dominion Government Vessels, the cross will be lowered from the end of the upper yard, and a ball or cross will be hoisted half way out on the upper yard, a large ball denoting a Flag Ship: a small ball denoting a Cruiser; and a cross denoting a Gunboat, or Torpedo Catcher, or Torpedo Boat, or else a Dominion Vessel, in which latter case the Dominion Ensign will be hoisted half way out on the lower yard. In all other cases the National Ensign of the Country to which the Warship belongs will be hoisted half way out on the lower yard. A further report is made from Camperdown when any vessel crosses the line between Devil's Island and Chebucto Head, and on this report the ball or cross denoting the vessel, is lowered and a pennant is bent on under it, and the signal is rehoisted, signifying that the vessel has entered the Harbor.

It is thus obvious that when the pennant (in the case of a steamer it is white with a blue ball) is seen flying beneath a ball or cross, it means that:—The vessel signalled has entered the Harbor, but as long as the ball, or cross has no pennant below it, the vessel is still outside the line above mentioned.

There is one exception to this rule, namely, in the case of a Fleet entering the Harbor, when one pennant beneath the group of balls, or crosses representing the fleet is sufficient to denote that the fleet has entered. For Merchant Steamers and Sailing Vessels each ball or cross will receive its distinctive pennant as each vessel enters. The distinctive pennant of a Troopship is a white flag with two blue crosses.

Sailing Vessels are signalled in the following manner.—

On being first sighted by the man on watch at Camperdown he reports whether the vessel is square rigged, (and if so how many masts

she has) or schooner rigged. If she is square rigged, and has three masts or more, she is signalled at the Citadel by a large ball on the end of the lower yard. If she is square-rigged and has only two masts, a small ball is hoisted; and if schooner or cutter rigged, a cross is hoisted.

As she approaches the mouth of the Harbor, the man at Camperdown will ascertain her rig definitely and report whether she is a Ship, or Barque, or Brig, or Brigantine, and when she crosses the line between Devil's Island and Chebueto Head, he will report the fact to the men at the Citadel, who will haul down the ball, or cross, and bend beneath it the descriptive pennant and rehoist.

The descriptive pennants for the various rigs, are as follows:—

Ship, blue; Barque, blue and white; Brig, red; Brigantine, red and white; Schooner, white; Cutter or Sloop, white with red ball.

As in the case of Merchant Steamers, the house flag, if kept at the Station, will be hoisted on the private staff, when the vessel's identity is known. If the vessel is a private yacht, a blue swallow-tail burgee will be hoisted on the private staff.

The following are the distinctive Mail flags employed:—

Weekly Mail from England . Blue flag with white centre.

“ “ for “ .. Blue to white flag quartered.

Fortnightly from “ .. Red flag with white centre.

“ “ for “ .. Blue and red flag quartered with white ball in first quarter.

Newfoundland Mail White flag with Blue centre.

Bermuda “ “ “ “ Red “

Should the direct Mail from England, arrive during the night, a red triangular flag is hoisted half-way out on the lower yard (east side) from 7 a. m. to 9 a. m.

When the mail from England is reported to have arrived at Rimouski, a blue flag with white “ R ” in centre is hoisted half-way out on lower yard (west side), for one hour. When the news is received during the night, this flag will be flown from 8 a. m. to 9 a. m.

It will be noticed that the upper yard is reserved for steamers, the outer halliards being for merchant steamers, and the inner for men-of-war.

The outer halliards of the lower yard are reserved for sailing vessels, and the inner halliards for mail flags and national ensigns of men-of-war.

Steamers only are signalled at night in the following manner:—

A steamer approaching from the west will be signalled by hoisting a green light on the end of the west lower yard arm, and a steamer approaching from the east will be signalled by a red light on the end of the eastern yard arm.

If two steamers are approaching from the east, a second red light will be hoisted close beneath the first and so on, one red light for each steamer from the east, and one green light for each steamer from the west.

When a Steamer enters the Harbor (*i. e.*, passes the line between Chebueto Head to Devil's Island) a white light will be hoisted close beneath the colored light which denotes her approach, thus corresponding with the steamer pennant hoisted by day beneath the ball when a steamer enters the Harbor.

When two Steamers from the east have entered, the white light will be hoisted close beneath the two red lights, but if one steamer has entered and the other is still outside, the white light will be hoisted beneath the upper red light and above the lower one which denotes the approach of the second steamer. The same with two steamers from the west.

Night signals for Mail Steamers, and Men-of-War will be made as under, the vertical intervals between those lights being 12 feet.

MEN OF WAR.

Green light above red light, English Man-of-War from west
 Red light above green light, English Man-of-War from east.
 Green, red and white lights, Foreign Man-of-War from west.
 Red, green and white lights, Foreign Man-of-War from east.
 Red, white and green lights, Dominion Gov't steamer from west.
 Green, white and red light, Dominion Gov' steamer from east.

MAIL-STEAMERS.

Red light above red, weekly mail from England.
 White light above white, weekly mail for England.
 Red light above white, fortnightly mail from England.
 Green light above white, fortnightly mail for England.
 White light above red, Newfoundland mail.
 White light above green, Bermuda mail.

Vessels in distress or ashore by day.—Red ensign upside down hoisted beneath the ball or cross,

Vessels in distress or ashore by night.—White light above red (for east), green (west) 3 feet apart.

Vessels in tow by day.—Steamer ball, the red square flag, followed by distinguishing pennant of vessel towed, when she enters harbour haul down and insert steamer pennant between ball and red flag.

Vessels in tow at night.—Two red or green lights horizontal close together, when entered harbour put white light below the two lights.

MAIL SIGNALS.

The following are the signals made by Royal Mail Steamers when entering Halifax Harbor, between Chebucto Head and York Redoubt.

STORM SIGNALS.

Directions to Mariners with Reference to Canadian Storm Warnings issued for Quebec and the Maritime Provinces.

I.—Cone, hoisted with the apex downwards, indicates "moderate gale is expected," probably at first from an easterly direction.

II.—Cone, with apex pointing upwards, indicates "moderate gale is expected," probably at first from a westerly direction.

III.—Drum, with Cone underneath, the apex pointing downwards, indicates fresh to heavy gale is expected, probably at first from a easterly direction.

IV.—Drum, with Cone above, the apex pointing upwards, indicates fresh to heavy gale is expected, probably at first from a westerly direction.

The Cone, when hoisted by itself, indicates that it is expected that the wind will obtain a velocity of 30 miles an hour, but will not exceed 40 miles; and it is not intended that an ordinary well found vessel should stay in port, but simply as a warning to mariners that strong winds are expected from the quarter indicated.

The Drum will always be hoisted when the velocity of the wind is expected to exceed 40 miles an hour.

The night signal, corresponding to Nos. 1 and 3, is two white lanterns hanging perpendicular.

The night signal, corresponding to Nos. 2 and 4, is two white lanterns hanging horizontally.

NOTES.—Mariners will be able to obtain further information from Drum Agents or by consulting the daily probabilities. Mariners should always bear in mind that the storm signals are merely cautionary, and do not necessarily mean that a storm will occur at the place where the signal is displayed, but that one is expected either there or within such a distance that vessels leaving port would be liable to be caught in it.

The storm warnings issued for Nova Scotia, are received from the Central Office, Toronto, Ont.

VALUABLE INFORMATION FOR BUSINESS MEN.

NOTES—Demand Notes are payable on presentation without grace, and bear legal interest after a demand has been made, if not so written. An endorser on a demand note is holden only for a limited time.

A Negotiable Note must be made payable either to bearer, or be properly endorsed by the person to whose order it is made. If the endorser wishes to avoid responsibility, he can endorse "without recourse."

A Joint Note is one signed by two or more persons, who each become liable for the whole amount.

Three days' grace are allowed on all time notes, after the time for payment expires; if not then paid, the endorser, if any, should be legally notified to be holden. Notes falling due on Sunday or on a legal holiday, are paid the day following.

Altering a note in any manner by the holder makes it void.

Notes given by minors are void.

The maker of a note that is lost or stolen is not released from payment, if the amount and consideration can be proven.

An endorser has a right of action against all whose names were previously on a note endorsed by him.

CANADIAN BANK NOTES.

UNDER the Banking Act, which went into effect 1st July, 1891, the Bank Notes of any Canadian Bank are redeemable at par in any part of Canada. Previous to this it was the custom of the Banks in one Province to charge a small commission for cashing the Notes of Banks in distant Provinces; this is now done away with.

Another important point is that under the new law, it is impossible for the holders of Notes of failed or suspended Banks to lose by them, for a fund has been established, and is now in the hands of the Government at Ottawa, amply sufficient to pay the notes of any suspended Bank. This fund, which is known as the "Bank Circulation Redemption Fund," was formed by a contribution from every Bank, graded according to circulation, and should it fall below a specified amount, owing to the payment from it of the notes of a failed Bank, the other Banks of the Dominion, must again contribute to make up the deficiency. In fact, strange as it may appear, such notes would be very likely to go to a premium at once as by law they bear six per cent. interest from the time of the Bank's suspension until the day named for payment.

The amount of notes of any Bank in circulation at any time shall not exceed the amount of its unimpaired capital, subject to penalties varying with the amount of such excess.

ECLIPSES, ETC.

In the year 1899 there will be five Eclipses—three of the Sun and two of the Moon.

I. *A partial Eclipse of the Sun*, January 1th; invisible here. Visible to the extreme North-western portion of Alaska, and the greater portion of the North Pacific Ocean.

II. *A Partial Eclipse of the Sun*, June 8th; not visible here. Visible to Great Britain, France, Germany, Denmark, Norway, Sweden, and all the Polar regions.

III. *A Total Eclipse of the Moon*, June 22nd-23rd; invisible here. Visible generally:—the beginning in the Eastern portions of Asia and throughout the Pacific Ocean, and the Western portions of North America; and the end, in Asia, the middle and Western Pacific Ocean, and the Eastern portions of Africa.

IV. *An Annular Eclipse of the Sun*, December 2nd; not visible here. Visible to a portion of New Zealand, the extreme South-western part of Australia, and a great portion of the South Pacific and Indian Oceans. The line of Annulus passes almost exactly through the South Pole.

V. *A Partial Eclipse of the Moon*, December 16th-17th. Occurring here as follows:

Moon enters penumbra.....	December 16th,	6h. 19m. A.
Moon enters shadow.....	" 16th,	7h. 31m. A.
Middle of Eclipse.....	" 16th,	9h. 12m. A.

Moon leaves penumbra.....	" 17th,	0h. 4m. M.

MORNING AND EVENING STARS, 1899.

The Planet Venus (♀) will be morning star until September 16th; then evening star the rest of the year.

The Planet Mars (♂) is morning star until January 18th; and then evening star the rest of the year.

The Planet Jupiter (♃) begins as morning star and continues as such till April 25th; after which he is evening star until November 13th; and then morning star to the end of the year.

The Planet Saturn (♄) is morning star till June 11th; then evening star till December 18th; after which it is morning star to end of the year.

EXPLANATORY.

Annular Eclipse—An Eclipse of the Sun in which its whole disk is covered by the Moon, except a bright outer ring.

Aphelion—that part of a planet's orbit furthest from the Sun.

Books for Church Choirs, at Methodist Book Room, Halifax.

Perihelion—that part of a planet's orbit *nearest* the Sun.

Elongation—angular distance of a planet from the Sun, as seen from the Earth.

Penumbra—a partial shadow resulting from the diminished light of the sun to the earth or moon, during a solar or lunar eclipse, appearing as partial.

Declination—the distance of a heavenly body from the equinoctial line

Ecliptic—the plane of the earth's orbit nearest the sun.

☾ Apogee—greatest distance from the earth.

☾ Perigee—least distance from the earth.

The Astronomical day is reckoned from Noon to Noon through the 24 hours. Thus July 21, 9h. is 9h. A. of July 21st, and July 21st, 15h. is 3h. M. of July 22.

The Sun's Declination and Equation of Time are given for Noon at Halifax, Apparent Time, i.e. when the True Sun is on the meridian.

The Moon's Southing is given in Astronomical Time for the Meridian Passage at Halifax; and her declination when on that meridian.

Both the rising and setting of the Moon are given for every day in the year.

To find the length of the day—subtract the time of sunrise from 12 hours, and to the difference add the time of sunset.

To find the length of the night—subtract the time of sunset from 12 hours, and to the difference add the time of sunrise next morning.

In this Almanac all the times except for Moon's Southing are Mean time at Halifax, i. e., Civil Time. The Moon's Southing is given for Astronomical Time at Halifax.

Standard time is 15 minutes earlier than Halifax Mean Time, and the Railway Time one hour later than Halifax Standard Time.

WEATHER GUIDE.

An observation said to have been made in London and Florence, extending over a period of fifty years, and observed in Halifax for the past thirty years, shows the weather will be the same as the last three days of the moon through the first three quarters taking a day for each quarter of the moon. It is necessary to make a calculation of the exact time of the beginning of each of the three days, making due allowance for difference of time between the lunar and solar day.

The weather will remain the same during the whole month as it is on the 5th, if it continues unchangeable on the 6th, and like the 4th day if the 6th resembles the 4th. Due observations must be made as to when the day begins, allowing for the difference of time as in the above.—*Com.*

BROWN BROS. & CO., CHEMISTS, GRANVILLE ST.

JANUARY.—The modern farmer of the present day rarely fails in receiving a good return for his labour. This is the season to lay out his plans for spring crop. Potatoes and Indian corn yield best in a hot season, and not too wet, while oats, barley, peas, turnips, mangles and grass make most growth in comparatively cool weather and moist atmosphere. The occasional loss of the hay crop from drought shows that it is of the greatest importance for a farmer not only to make a judicious choice of crops suitable to the climate, and to the soils and exposures of his fields, but also to have sufficient variety in his crops, so that whether the season should prove a hot and dry one, or cold or moist, or of a medium or average character, he may fairly expect a profitable return. Other kinds of forage should also be sown, so that reliance may

not be placed entirely upon the hay crop for the winter feed of cattle. Let it be remembered that a moderately cool wet season will give a good hay crop, while a hot dry one will ensure scarcity of this most important article of fodder. To meet this a reasonable plot should be sown or planted with mangolds, turnips, or Indian corn. The latter is always advisable for ensilage in our varied climate and soils. No farmer should depend on hay alone for winter feed. All modern farmers in Great Britain, as well as many in Canada and the United States, use a mixed feed, or mashley as it is called, in the green state in summer time, and dried into hay, or for ensilage, in the winter. The following is a good mixture of seeds for mashley:—1 bushel broad horse beans, 1 bushel small peas, $\frac{1}{2}$ bushel vetches, 1 oats. Or, 1 bushel peas, 1 bushel tares or vetches, 1 bushel oats. Or, peas, oats and wheat make an excellent mixed feed, to be cut quite green while the milk is in the kernel, for

ensilage corn should be planted thin; twelve quarts (12) of seed is ample for one acre. Wheat, peas and oats may also be left to ripen, the grain crushed and mixed with the cut straw for winter feed.

FEBRUARY is a most trying month for cattle; we cannot too strongly impress the necessity of care in their feeding, watering and general treatment, at this season of the year. In order to overcome the many difficulties that appear in February, it is a good rule to give extra time and attention to the stock. In feeding grain and meal always mix them into cut hay, moistened, and season with common salt. Cut hay does not digest any more rapidly than uncut, but it enables the meal or crushed grain fed with it to be more perfectly digested. Our farmers still suffer immense loss every year in striving to fatten cattle on meal, bran and middlings fed alone, without being mixed with hay cut as here described. When fed alone the meal simply passes through the animals in an undigested form, and is thus lost. In districts where an Agricultural Society does not already exist this is a good time to organize;

farmers have leisure to attend a meeting and take steps for organization. Notification has to be made to the Office of Agriculture, so that the new society may be sanctioned by the Lieut.-Governor-in-Council before the end of June, in order to qualify for the grant for the current year.

MARCH.—The kitchen garden, requiring but a small piece of ground, and yet one of the most valuable crops for the comfort of the home,—instead of finding on every farm a well-furnished kitchen garden, filled with vegetables and small fruits, sufficient for the family wants during the year and some to sell, such a luxury is the exception rather than the rule. There is no reason why every farmer's family should not be provided to a large extent with supplies from the garden, such as salads, rhubarb, early green peas, lettuce, radishes, cucumbers, early cauliflower and cabbages, early beans, gooseberries, currants, strawberries, raspberries, winter radishes, turnips, beets, parsnips, artichokes, seasoning herbs, melons, squashes, and dozens of other delicious and substantial articles of food that cost nothing but foresight and some agreeable labor. The nature of our climate necessitates the use of hot-beds for raising seeding plants for those crops that require a long season to

mature. A hot-bed is made by piling on successive layers of fine, fresh horse dung, obtained from a stable where oats are freely fed. The manure may be raised to a height of two or three feet above the surface of the soil. On top, spread four or five inches of very fine and rich soil mixed with sand; this should have been prepared in the fall, and kept dry under cover all winter,—otherwise it is likely to become a hard frozen lump or mass. Glass sashes are then put on and kept close till the hot-bed heats. The steam and heat will soon start the seeds and

growth will be rapid. In this way lettuce, radishes, etc., may be ready for the table quite early in the spring.

APRIL.—This is the month to begin seeding as soon as the soil is fit, and this can be done much earlier and more rapidly where the land has been ploughed in the fall. The farmer should be ready to avail himself of the early opportunities presented by the varying years. It is not wise to seed till the soil is comparatively dry, and little is gained by early sowing until the ground is warm. In fields seeded down with timothy last fall, it will now be time to sow clover,—a mixture of red and alsyke

is the best for hay. Where early potatoes are required, the seed should be kept in a warm place so as to start the eyes, and, wherever the ground is dry enough, they may be planted. This advice, if not heeded, will lead to potatoes coming up scantily, many rotting in the ground. If farmers, instead of planting inert seed potatoes, taken out of a cold cellar, would first allow the eyes to start, there would be fewer complaints of the seeds perishing in the soil. Last year (1898) the spring opened early, and continued with abundant rains during the whole season, making an excellent season for the growth of all crops.

MAY.—In most parts of the Province ploughing will still have to be done; let it be done as soon as the land is fit; if manure has to be taken out for crops, don't wait for a more convenient season; if the weather is not all that is desired proceed nevertheless with your work, vary it to suit the state of the soil and atmosphere. Men cannot fight successfully against the operations of nature, but they can very often turn them to advantage by consideration and forethought. What has to be sown and planted this month? *Everything*, except what has either already been committed to the soil, or requires a warm seed bed like the turnip. Exceptional crops also are bush beans, pole-beans, corn, tomatoes, cucumbers, squash; it is only in warm, sandy soils, and in districts not

subject to night frosts in spring time, that such things can safely be put out before the end of the month. One of the principal marketable crops in Nova Scotia is the potato. It has been found advantageous of late years to plant as early as possible; as soon therefore as the ground is in a fit condition, commit the potato to it; see, however, that the eyes of the seed have started into growth, otherwise it will be apt to rot in the cold seed bed. Neglect of this point, which has been urged again and again in the Farmer's Calendar of this Almanac, has caused the loss of countless thousands of dollars to our farmers. So important is the sprouting of seed potatoes before planting regarded in England that the

seedsmen have instructions thereanent printed on the labels, which they send out with the seed, assuring their customers that this is necessary in order to obtain a satisfactory crop. In light lands the manure (old and well rotted) may be ploughed in before planting. In heavy soils, put the manure in the drills, so that the warmth of the air may counteract the deadening effect of the cold wet clods. Superphosphate and other artificial fertilizers may also be used.

JUNE.—Planting and sowing will still continue. Corn for ensilage should now be sown. But, while spring operations have to be continued and finished this month, there are others appertaining more especially to the summer that have to be attended to. Garden crops

will require hoeing and weeding; potatoes also when sufficiently advanced. It should not be forgotten that we have not only to sow and cultivate, but to protect our crops, if we would gather a profitable harvest. In localities subject to late spring frosts, it is easy to protect early crops by throwing some spruce or other bush over them on cold nights. A method much used in France, and which may easily be adopted in this country, is to burn brush to windward so as to cover the field in a cloud of smoke. Attention has often been called to such simple and costless devices, and yet year after year we hear of the loss of early crops: it is said "by frost;" we should say "by neglect." The Colorado

or potato beetle now challenges attention. Paris green and London purple are undoubtedly efficacious, but they are homicides as well as insecticides, and every precaution should be observed in their use by farmers, and in their sale by apothecaries and store-keepers. The poison is best applied in mixture of ground plaster. Hellebore is also effective and less dangerous, but too expensive where large fields have to be poisoned. As soon as the currant and gooseberry bushes have pushed out their first leaves and blossoms, it will be found advantageous to give them a sprinkling of white hellebore powder in the morning before the dew is off. This will destroy the first crop of currant worms, and thus preserve the bushes and the fruit crop for the season. The objection to the use of white hellebore on currant bushes (if used early enough in the season)

is by no means so strong as to the employment of arsenical poisons, as the white hellebore, being organic, decays, and is thus speedily rendered innocuous, by exposure to rain and air. Summer bedding plants are set out in the flower garden as early this month as the weather will allow; verbenas may be put out very early, and they thrive better in the moist, cool weather of early June than later, when the soil is apt to be baked by the sun. Stocks are also very hardy and rejoice in hot, dry weather, if they are in good soil. Balsams, Phloxes, Petunias, Geraniums, Heliotropes, and other tender things, need not be put out so early, as

they will make no progress in cool weather, and the slightest approach to frost will kill them for the season.

JULY.—This month is especially devoted to the cultivation of the various field crops. Cultivation, in this restricted sense, means the hoeing of crops, stirring by cultivators and harrows, and such like implements, between or over the drills, hilling up and moulding. The object of these operations is not merely to destroy weeds, as is commonly supposed by many, but to keep the soil open, and thus promote the decomposition of the manure, to enable the soil to retain moisture, allow the free access of air to it, bring it well over and around the roots

and stems, and, by those several means, to promote vigorous growth. The sowing of turnips is usually recommended for the month of June, but as the ground has to be remarkably fine for this crop, and as turnips are often put in to fill up land that was originally intended for the earlier sown roots, it frequently happens that turnips have to be sown in July. In fact, if turnips are sown early in June, they are apt to run to seed, instead of forming bulbs. Some even prefer to sow their Swedes early this month instead of June, so as to avoid the well-known "fly" which attacks the young seedling plants, and the soft turnips for immediate feeding need not necessarily be sown till the end of July, although if they get warm genial weather to start with they do much better earlier. Late sowing while it is apt to give a small yield, ensures excellent quality and freedom from fibre, so that turnips intended for table

use in winter should never be sown early. The ground should have undergone a thorough pulverization. Light sandy soil is the best for turnips. They start better after the ground is warm, but the bulbs swell most rapidly during the cold dewy nights in Autumn. The soil cannot be worked too deep, or made too fine, for turnips; the surface soil must be made fine for a seed bed. Town manures are valuable for this crop, and crushed bones have been applied with best effects, either when covered in the drills in the manner of ordinary dung, or, preferably, when sown by machine along with the seeds, so as to be in immediate contact with the latter. In many parts of the province, particularly Yarmouth, Shelburne, Queens, Digby and Annapolis, the important operation of hay harvesting will have commenced this month, and on upland will probably be well advanced, or even finished before the end of the month. All other work has to give way to this. If the weather is warm and dull, do not hurry the hay into the barn; put it

up in large, well-built cocks, so as to allow it to sweat or ripen before being put into the mow. When mows are large this is particularly necessary.

AUGUST.—In the northern and eastern counties, and on dyke and intervale land, much hay has, in ordinary seasons, to be taken in during the month of August. Hay making is the most important operation of the Nova Scotia farmer, half of all his land under crop of every kind being occupied with grass destined to be made into hay. More than half a million acres have to be mown every season, and this necessarily employs for the time a large amount of labour. However, where suitable implements and appliances are used there is now no difficulty in securing the crop. After haying there will be work in top-dressing the hay-fields, and in the garden and orchard. Where the trees are in grass

they will benefit by a rich top-dressing around their roots. Look after the ripening fruit, destroy the caterpillars, if any still remain; pick the early August apples, and send them into the local market or to the picnic. When the rain comes beds of strawberries may be made up. See that the ground is well drained and enriched with old manure. Mushrooms now appear in the horse pastures, house flies become troublesome, and the swallows congregate in flocks and leave us.

SEPTEMBER.—Grain has to be harvested. Late in the month Indian corn will have to be cut and put into the silos. The ensilage forms an excellent supplement to the hay and roots, but ensilage is still used to only a very limited extent. Later in the month, potatoes of the earlier kinds, and earlier planted, will be ready to be taken up, but while the weather remains warm they should be well aired before being put into the cellar, and only in small quantities at a time. The most experienced farmers usually wait for cold weather before taking up their fall crop.

Use PRICE'S GLYCERINE CREAM for Chapped Hands.

The farmer's year is a complete cycle, and before one year's annual harvest is taken in it is needful to be preparing for the next. In fact it is already time, in September, to sow Winter Rye, which is a favorite crop with farmers who have suitable, light sandy soils. It is also a valuable crop for yielding green feed in the month of May, when it is much required. This is the month when county agricultural exhibitions should be held, and by holding such exhibitions it would stimulate the farmers in the several counties and be feeders for the Annual Provincial Exhibition held in Halifax.

OCTOBER.—The apple crop is yearly acquiring increased importance in Nova Scotia, and our apple orchards are annually extending. But there is still plenty of room, and no farmer who has suitable land, and is willing to take the necessary care, can make a better permanent invest-

ment than by planting an orchard. The best market varieties, 'at least those that appear at the present to be most in favor among our fruit growers in the counties of Kings and Annapolis, where orcharding is carried on to a great extent, and in a systematic business manner, are: Gravenstein, Yellow Bellefleur, or as it is commonly called here, Bishop's Pippin, King of Tompkins, R. I. Greening, Ribston Pippin, Northern Spy, Vandevere, Golden Russet, Nonpareil and Baldwin. Digby County is at present our cherry county, and Cape Breton has profitable plum orchards, but these fruits may be grown all over the province. Now that the season's work is well nigh over, the young man on the farm may repair to the School of Agriculture and Provincial Farm, Truro, where instruction is given in the art of agriculture and sciences bearing upon it. A post card of inquiry to Prof. Smith, the Provincial Lecturer on Agriculture, will bring full particulars as to the operation and arrangements of the School and Farm and the terms upon which pupils are

admitted. No fees are charged, and students are paid for their work on the farm. Students are not boarded on the farm, but can obtain comfortable board and lodging in Truro at very reasonable rates. The School of Agriculture, which is also aided by the Provincial Treasury, is situated at Wolfville, under direction of ... S. Fruit Growers' Association. Here the several gardening operations, propagation of plants and management of orchards are taught. No farmer should allow this month to pass without ploughing if possible all lands intended for spring crops. Then note favourable and speedy process in getting the crop in the ground in the spring.

NOVEMBER.—To ensure the improvement of cattle, every Society keeps or ought to keep a sufficient number of male animals for the use of members. For beef cattle grades of Short Horn Durham, Polled Angus, Galloway, and Hereford are used. For milk alone, or the cheese factory, Ayshire, Jerseys and Guernseys are the most suitable. The

Jerseys have been great favorites, and the increase will promote the manufacture of butter, but it threatens to lessen our capacity for beef production. Fall ploughing will be the principal field work this month. After ploughing do not forget to go carefully over the water furrows to make way for the exit of the rain and melting snows that are sure to flood your fields before seed time. A well ploughed, well drained field may be sown in spring as soon as the frost is gone, while one that is irregularly ploughed or has no water furrows, may long remain a puddle, defying every attempt to improve its condition, until the season is so far advanced as to reduce very much the prospect of a crop. The best part of what is too often left to be "Spring work," can be done in the month of November. At the same time care should be taken not to open up gravelly banks or hilly land, subject to be scoured by the Fall or Spring rains, or melting snows. Every season brings loud complaints of the winter-killing of grass in the hay fields. It may possibly be of use to some farmers to say that the winter-killing is merely another name for neglect. If a hay field not on a dead level is drained simply by run-

ning water furrows with a plough to carry off surface water there will be no winter-killing. Where land is perfectly flat a more effective system of draining must be adopted. The want of the simple water-furrow costs the farmers of this province many thousands of dollars every year, and is often the real cause of burnt up hay fields that are attributed to drought. Too much importance cannot be laid on fall ploughing; it enables farmers to get in larger crops, and much earlier, and the winter action of frosts has a decided tendency to increase the yield.

DECEMBER.—Agricultural improvement is encouraged and promoted in various ways by the Provincial Legislature in aid of Agricultural Societies throughout the province, with a membership of about six thousand farmers; each society is entitled to draw from the Provincial Treasury an annual grant in aid to promote its operations. Use Pearl Dentifrice for the Teeth, BROWN BROS. & CO.

purpose of a Society is to improve the live stock of the district, which is accomplished by obtaining and keeping for the use of its members superior male animals, such as bulls, rams and boars. Societies may also, by permission, introduce seeds of new varieties of grain, roots, and also improved implements, and sell them to members at cost and charges. The whole of the Societies of the Province meet annually on the first Tuesday in November, each in its own district, when the members of each Society receive their Director's report, and elect officers for the ensuing year. Full information as to the method of organizing societies, the grants given in aid, and other particulars, may be obtained on application at the Office of Agriculture, Old Province Building, Halifax. In addition to these organizations there is the Nova Scotia Farmer's Association, which meets once a year with delegates from all the Societies of the Province. A register of thoroughbred cattle is kept at the Office of Agriculture, where blank forms of application for registry can be obtained. The printed Herd Register of Nova Scotia Cattle can be obtained from any bookseller for a dollar.

Nova Scotia Game Laws.

GEORGE PIERCE, Secretary, N. S. Game Soc., Halifax, N. S.

The Nova Scotia Game Society has issued an abstract of the game laws of the Province. Sportsmen would do well to peruse them carefully. They are as follows:

MOOSE, CARIBOU.

Close season from January 15th to September 15th.

No person shall kill more than two moose and two caribou.

Meat must be taken out within ten days from killing.—Penalty for breach of foregoing provisions, \$50 to \$200.

No person shall have in possession any green hide or fresh meat from January 20th to October 1st.—Penalty \$25 to \$50.

No person shall set any snare or trap for moose or caribou.—Penalty \$50 to \$100.

No person shall hunt moose or caribou with dogs.—Penalty \$50 to \$100.

All dogs so hunting may be destroyed by any person.

Provision protecting cow moose, repealed.

Any person bringing moose or caribou meat to Halifax, or any incorporated town, for sale, shall bring neck and forelegs and keep them exposed till all meat is sold. Penalty \$50. Any member or agent of Game Society, game commissioner, police officer or constable is authorized to examine or mark game, and resistance to him is a violation of the law.

Close season for American elk or red deer till October 1st, 1901.—Penalty \$50 to \$100.

BIRDS.

Partridge.—Till Oct. 1st, 1901, no person shall hunt, kill, buy, sell or have in possession, any Partridge, whether killed in this province or elsewhere.—Penalty \$5 to \$10 for each offence.

Woodcock, Snipe, Teal, Blue-winged Duck, Wood Duck.—Close season March 1st to Sept. 1st, save in Cape Breton, where close season for all birds except partridge is March 1st to August 30th.

No person shall kill any game bird between sunset and sunrise.

No person shall have any bird in possession in close season.

No snare, trap or net shall be used for any game bird, at any time.

Any person may destroy any snare, etc., so set or used

Penalty for breach of provision as to birds \$5 to \$10 for each bird.

Pheasants, spruce partridge, &c.—Unlawful to hunt, kill, or have in possession, pheasants, spruce partridge, blackcock, capercaillie or sharp-tailed grouse.—Penalty, \$5 for each spruce partridge, \$25 for each of the other birds. Unlawful to have in possession, buy or sell eggs, or injure or destroy the nests of any native birds.—Penalty \$5 to \$10.

RABBITS, HARES.

Close season from February 1st to October 1st.

No person shall have them in possession from February 5th to October 1st.

BEAVER.

No person shall hunt or kill any beaver until after the 1st day of November, A. D. 1900.—Penalty for each offence, \$100.

OTHER FUR-BEARING ANIMALS.

Mink.—Close season March 1st to November 1st. For all other fur-bearing animals, except bear, wolf, loup-cervier, wildcat, skunk, musquash, raccoon, fox, woodchuck, otter and weasel, from April 1st to November 1st.—Penalty, \$5. Unlawful to hunt any of the foregoing animals with dogs between 1st February and 1st October.—Penalty, \$30 to \$50.

LICENSES.

No person not domiciled in Nova Scotia shall hunt without a license. License fee for birds, hares and rabbits, \$10; all other game, \$30. Licenses may be had at Provincial Secretary's office, Halifax, from all Clerks of Counties and from the Agents of the Game Society in various parts of the Province.

License fee for officers, Army and Navy, on this station, \$5. Such officers if members of Game Society, are not required to take any license.

Penalty for hunting without license, \$50 to \$100, in addition to the license fee.

The hunter, guide or companion of any such person hunting without license, is liable to same fine as the person himself.

NOTE.—No person shall sell or expose for sale, or buy any animal or bird included in the definition of game until after the lapse of three days from the end of any close season.—Penalty, \$25.

Whenever a fine is imposed by the game laws, the person fined is liable to imprisonment if the fine is not paid; and judgment may be recovered in the county courts for amount of fine and costs, and may be recorded so as to bind the lands of the defendant.

When he is imprisoned he shall remain in jail one day for each dollar of the fine.

All the penalties for having game unlawfully in possession, apply whether the game was killed in Nova Scotia or elsewhere.

N. B.—Officers and Agents of Game Society, any Game Commissioner, Magistrate, Detective, Police Officer or Constable having reason to believe any game illegally taken is in the possession, or in or on the person or property of any person, or in any bag, basket, box, waggon, cart, sleigh, etc., shall have the right, and it shall be his duty to search the same, and to seize any game if found. Any person obstructing such officer shall be liable to penalty of \$25.

CAPE BRETON.

Close season for moose and caribon in Cape Breton, till September 15th, 1899.—Penalty, \$200.

EXPORT, BIRDS, ETC.

Unlawful to export from Canada, deer, wild turkey, quail, partridge, prairie fowl, woodcock.

FISH.

Salmon.—Close season from August 15th to March 1st, except that salmon may be fished for with the fly alone from February 1st to August 15th. From low water nearest 6 o'clock p. m. of every Saturday, to low water nearest 6 a. m. of every Monday, no one shall fish for salmon in non-tidal waters. In non-tidal waters frequented by salmon, no one shall fish for any kind of fish between 9 o'clock p. m. of every Saturday and 6 o'clock a. m. of the following Monday. Drifting and dipping for salmon is prohibited. The use of nets and other apparatus is confined to tidal waters. Close season in Cape Breton from August 31st to February 1st.

Trout, &c.—Unlawful to fish for or to have in possession any speckled trout (*salvelinus fontinalis*), lake trout or land-locked salmon, between 1st October and 1st April. Unlawful to fish for trout by any other means than angling with hook and line, or to fish through the ice.—Penalty for breach of foregoing provisions, \$20 for each offence.

Explosives.—The use of explosives to kill any kind of fish is prohibited under a penalty of \$20.

Bass.—Close season, from 1st March to 1st October, except that Bass may be fished for at all times by angling with hook and line. Bass should not be fished for with any net having meshes of a less size than 6 inches, extension measure, nor by means of seines. Penalty \$20.

Shad and Gaspereaux.—Close season for Shad and Gaspereaux shall be from sunset on Friday evening to sunrise Monday morning in each week. Penalty \$20.

MEMORANDUM OF INFORMATION AND INSTRUCTIONS RESPECTING,
THE BRITISH PREFERENTIAL TARIFF.

By an Act of the Parliament of Canada, assented to on the 13th of June, 1898
it is provided :

1. That all articles except wines, malt liquors, spirits, spirituous liquors, liquid medicines and articles containing alcohol; tobacco, cigars, and cigarettes which are the growth, produce or manufacture of any of the following countries, and which are declared to be dutiable upon importation into Canada, may, when imported direct into Canada from any of such countries, be entered for duty or taken out of warehouse for consumption in Canada, on and after the first day of August, 1898, at a reduction of one-fourth from the general tariff rates of duty:—

- (a.) The United Kingdom of Great Britain and Ireland;
- (b.) The British Colony of Bermuda;
- (c.) The British Colonies commonly called the British West Indies, including the following:—

The Bahamas;
Jamaica;
Turks Island and the Caicos Islands;
The Leeward Islands (Antigua, St. Christopher Nevis, Dominica, Montserrat and the Virgin Islands);
The Windward Islands (Grenada, St. Vincent and St. Lucia);
Barbados;
Trinidad and Tobago;

- (d.) British Guiana;
- (e.) Any other British Colony or possession the customs tariff of which, on the whole, is as favourable to Canada as the British Preferential Tariff is to such Colony or possession. (See list hereafter of colonies or possessions which have been admitted under this subsection.)

2. That manufactured articles to be admitted under such Preferential Tariff shall be *bona fide* the manufactures of a country or countries entitled to the benefits of such Tariff, and that such benefits shall not extend to the importation of articles into the production of which there has not entered a substantial portion of the labour of such countries. Any question that may arise as to any articles being entitled to such benefits shall be decided by the Minister of Customs, whose decision shall be final.

3. That raw sugar, including sugar drainings or pumpings drained in transit, melado or concentrated melado, tank bottoms and sugar concrete, the produce of any British Colony or possession, may, when imported direct from any British Colony or possession, be entered for duty or taken out of warehouse for consumption in Canada at the reduced rate of duty provided in the British Preferential Tariff.

4. That the reduction under the Preferential Tariff shall only apply to refined sugars when evidence satisfactory to the Minister of Customs is furnished that such refined sugar has been manufactured wholly from raw sugar produced in the British Colonies or possessions.

5. That the Minister of Customs with the approval of the Governor in Council shall determine what British Colonies or possessions shall be entitled to the benefits of the said Preferential Tariff under clause (e) of paragraph 1 of this memorandum.

6. That the Minister of Customs may with the approval of the Governor in Council make such regulations as may be deemed necessary for carrying out the intention of the Act.

The Minister of Customs has, under the power vested in him by the said Act, and with the approval of the Governor in Council, determined that the following British Colonies and possessions are entitled to the benefits of the said Preferential Tariff, viz. :—

British India;
Ceylon;
Straits Settlements;
New South Wales;

Under the power vested in him by the said Act, the said Minister of Customs has also, with the approval of the Governor in Council, made certain regulations for carrying out the intention of such Act, the full text of which Regulations is set forth in the Orders in Council of 14th July, 1898, as per copy annexed hereto.

Unless the regulations be complied with in every respect the articles will be subject to payment of the general tariff rates of duty upon importations into Canada.

It is deemed advisable to draw the attention of exporters to the fact that the Customs laws of Canada provide severe penalties for the making of false invoices and certificates whereby the Customs Revenue shall or may be defrauded. In such cases, the goods are liable to forfeiture, and the exporter making such fraudulent invoices or certificate, as well as the importer using them, is subject to heavy pecuniary penalties in addition to the forfeiture of the goods. Exporters are, therefore, advised and cautioned to use every care in furnishing true and correct invoices and certificates for goods shipped to Canada.

Attention is directed to the following requirements of the Canadian Customs Laws:—

1. Every invoice of goods imported into Canada shall be certified in writing as correct by the person, firm or corporation selling or consigning the goods, and shall truly show the whole and actual value of the goods in the currency of the country whence the goods have been exported directly to Canada, and the quantity and description of such goods, and the marks and numbers on the packages, in such a manner as to indicate truly the quantities and values of the articles comprised in each exportation package, all of which packages shall be legibly marked and numbered on the outside when of such a character as to enable such marks and numbers to be placed thereon.

2. If invoices are made out at lower prices for goods exported directly to Canada than the fair market value at the same time and place for such goods when sold for home consumption in the country whence so exported, in all such cases the invoices are also to show clearly, in a special column, or by an addition thereto, such fair market value, as aforesaid, for the goods described therein.

Exporters will note particularly that a separate invoice must be furnished for goods entitled to entry under the Preferential Tariff and that the certificates required must be written, printed or stamped on the invoice, and also that the Preferential Tariff does not apply to any of the following articles, viz.: wines, malt liquors, spirits, spirituous liquors, liquid medicines and articles containing alcohol; tobacco, cigars and cigarettes.

Exporters are required to mark distinctly in writing on all invoices of sugars exported to Canada that the sugars described therein are either RAW or REFINED in every case, whether for entry under the Preferential Tariff or under the General Tariff.

JOHN McDUGALD,
Commissioner of Customs.

CUSTOMS DEPARTMENT, CANADA,
OTTAWA, 14th July, 1898.

REGULATIONS FOR THE ENTRY OF GOODS UNDER THE BRITISH PREFERENTIAL TARIFF OF CANADA.

Approved by Order in Council, 14th July, 1898.

1. A separate invoice of articles entitled to entry under the British Preferential Tariff of Canada, upon the face or back of which there shall be written, printed or stamped a certificate of growth, produce or manufacture, in such of the forms (to be had of the Customs Department) shall be produced and delivered to the Collector of Customs at the Port of Entry in Canada, before entry of such articles under the said Preferential Tariff shall be allowed; such certificate shall be made and signed in manner following, that is to say:—

(a.) If the exporter be an individual, either he or his manager, chief clerk or other principal official, having knowledge of the facts to be certified to, shall make and sign the certificate

(b.) If the exporter be a firm or corporation the certificate shall be made and signed by a partner, manager, director, chief clerk or other principal official of such firm or corporation, having knowledge of the facts certified to.

2. In the case of entry of refined sugars under the said Preferential Tariff, in addition to the certificate of growth, produce or manufacture, to be written, printed or stamped on the invoice referred to in the first paragraph above, there shall be attached to the invoice a certificate of the refiner of the sugar as to the growth and refining of the same, in the form marked "II," set forth and prescribed in the Schedule of Forms hereto attached, before entry under the said tariff shall be allowed.

3. The certificate of growth, produce or manufacture hereinbefore prescribed will be waived in the case of postal packages not exceeding \$25 in value when for entry under the British Preferential Tariff, if the contents of such packages

Postage Stamps, Postage Cards, etc., issued by the Canadian P. O. Department.

The stamps issued by the Canadian Post Office Department, are of the following denominations, viz.: postage stamps, $\frac{1}{2}$ c., 1 c., 2 c., 3 c., 5 c., 6 c., 8 c., 10 c., 15 c., 20 c. and 50 c.; special delivery stamp, 10c; 1c., 2c., 3 c. letter cards and 1 c. and 3 c. envelopes are also supplied.

Post Cards are issued at one cent each, and may be sent to any address in Canada or United States. Reply Post Cards (2 cts.) may be sent to any address in Canada or the United States. Post cards are also issued at two cents each for transmission to the United Kingdom, Newfoundland, St. Pierre et Miquelon, and certain foreign countries. Post Bands are for sale at the rate of \$1.25 per hundred.

1st Class Matter.

Includes Letters, Post Cards, Legal and Commercial Papers wholly or partly written, (with the exception of those specially exempted,) and all matter of the nature of a letter or written correspondence.

NEWEST BLOUSES AND SHIRT WAISTS, at C. ROBSON & CO'S, 139 GRANVILLE ST., HALIFAX.

The letter rate for Canada, Newfoundland and the United States is 3 cents per oz., and for other countries 5 cents per $\frac{1}{2}$ oz.

Letters addressed to any place in Canada upon which any postage has been prepaid by stamp, are to be forwarded to their destination charged with double the amount of the postage thereon not so pre-paid, which amount is to be collected on delivery.

Letters addressed to places in Canada or in the United States, wholly unpaid, and letters addressed to the United States on which at least one full rate (3 cents) has not been prepaid, *are sent to the Dead Letter office.*

RE-DIRECTED LETTERS.

Letters re-directed to places in Canada, the United States and Postal Union Countries, *without being taken out of the post office, or if handed back to post office as soon as possible after delivery therefrom*, are not liable to any additional postage.

REQUEST AND ADDRESS LETTERS.

Letters for places in Canada, Newfoundland and the United States sent in envelopes having printed thereon a **REQUEST** that the letters be returned to the sender, or bearing on the corner the printed address of the sender, will be returned direct to the senders instead of being sent to Dead Letter Office.

POST CARDS.

For Canada and the United States, one cent each. For Great Britain, Newfoundland and all Postal Union Countries, two cents each. Reply cards, for Canada and the United States, two cents each. A post card may be addressed by means of an adhesive tag, but nothing else must be attached to it, except, of course, an additional stamp when necessary, nor must the card be cut or defaced in any way.

Private Post Cards may be sent under the following conditions—The words "Private Post Card" must be distinctly printed or written on the address side near the top. The name and address of the sender may be printed on the face of the card, but the face of the card is not to be used for advertising purposes. Private Post Cards must not exceed a size of 6 inches in length by $3\frac{1}{2}$ inches in width and must not be less than $3\frac{1}{4}$ inches by $2\frac{1}{4}$ inches. Cards not complying with these regulations will be treated as insufficiently paid letters.

2nd Class Matter.

Newspapers and periodicals posted from the office of publication, and authorized to pass free of postage to regular subscribers in Canada Newfoundland and the United States.

3rd Class Matter.

NEWSPAPERS AND PERIODICALS.

Transient newspapers within the Dominion and the United States 1 cent per four ounces or fraction thereof—but a single paper weighing not more than one ounce will be forwarded for $\frac{1}{2}$ cent. For the United Kingdom and all Postal Union countries, the rate is 1 cent per two ounces, or fraction of two ounces.

A newspaper or periodical must have no cover which can not easily be withdrawn. It must contain no enclosure. It must have no writing thereon but the name and address of the person to whom it is sent.

BOOKS, CIRCULARS, ETC.

The postage on printed books, pamphlets, circulars, occasional publications, etc., addressed to Canada, is 1 cent per 4 oz. To the United

States, Newfoundland, Great Britain and all European countries, 1 cent per 2 oz. The postage on blank books, printers' proof sheets, maps, prints, drawings, engravings, lithographs, photographs, sheet music, printed forms, entirely blank, and printed stationary, etc., addressed to Canada and the United States, is 1 cent per 2 oz. No package must exceed in length 2 feet by 1 foot in width or depth. The limit of weight for Canada, United States and Great Britain is 5 lbs.

Seeds, cuttings, bulbs, roots and scions or grafts can only be sent to the United States as 5th class matter; when posted for delivery in Canada, the postage is 1 cent per 4 oz., and the limit of weight 5 lbs.

Commercial papers and legal documents may be sent to Great Britain, all European countries and United States, at 5 cents for the first 10 oz, and 1 cent for every additional 2 oz. These papers, when posted for delivery in Canada, must be prepaid at Letter or Parcel Post rates—but deeds and insurance policies may be sent if prepaid 1 cent per 2 oz.

PATTERNS AND SAMPLES.

Bona fide patterns and samples of merchandise, not exceeding 24 ounces in weight, may be sent to any place in Canada at 1 cent per 4 ounces. Must be put up so as to admit of inspection. Goods sent in execution of an order, however small the quantity may be, or articles sent by one private individual to another, *not being actually Trade Patterns or Samples*, are not admissible as such. The limit of weight to United Kingdom is 5 lbs., and the limit of size 2 ft in length by 1 in breadth or depth. Postage, 2 cents for the first 4 ounces, and 1 cent for every additional two ounces.

4th Class Matter.—CLOSED PARCELS.

Closed parcels may be sent to places in Canada. They must be plainly addressed and should have the sender's name on the lower left hand corner. No correspondence must be enclosed.

Parcels for Canada must be prepaid 6 cents for 4 ounces, and must not exceed 5 lbs. in weight nor 2 feet in length by 1 foot in width or depth. They may be registered for a fee of 5 cents.

5th Class Matter

comprises such articles of general merchandise as are not entitled to any lower rate of postage. Postage 1 cent per oz., or fraction of an ounce. Limit of weight 5 lbs., of size, two feet in length by one foot in width or depth. Matter claiming to be 5th class *must be open to inspection*, and there must be no correspondence enclosed. Packages of 5th class matter may be sent to the United States for the same prepayment as is required within the Dominion, but the contents will be liable to customs inspection and collection of duty in the United States. Sealed tins containing fish, lobster, vegetables, meat, etc., if put up in a solid manner and labelled in such a way as to fully indicate the nature of their contents may be sent as 5th class matter within the Dominion, but no sealed matter can be forwarded to the United States under this head. Liquids, oils and fatty substances may be sent to places in Canada and the United States as 5th class, if put up in accordance with the ruling referring to such articles in the Canada Postal Guide.

FOREIGN PARCEL MAIL.

A parcel post mail for the United Kingdom and certain other countries, is made up weekly at the Halifax P. O. for transmission by Canadian Packet. A parcel for the United Kingdom must

not exceed 11 lbs. in weight, nor two feet in length by 1 foot in width or depth. The postage is 16 cents for the first lb. and 12 cents for each additional lb. or fraction thereof. Parcels can be sent to all the countries and colonies with which the United Kingdom maintains a parcel post. Information as to the principal places, and the rates applicable, can be obtained at the delivery wicket.

A Customs declaration form giving an accurate statement of the contents and value of the parcel, etc., must be filled up by the sender. This form must be affixed to the parcel. The forms can be obtained at the delivery wicket of the Post Office.

REGISTRATION.

Every article intended for registration *must be handed in at the Post Office*, and a receipt obtained therefor. *On no account must it be dropped into a letter box.* The registration fees on letters to places in Canada, Newfoundland, the United States, Great Britain and all European countries, is 5 cents.

All classes of matter may be registered to all destinations in Canada and throughout the Postal Union; and *letters* may be registered to most of the countries not included in the Union.

MATTER WHICH CANNOT BE FORWARDED THROUGH THE POST.

Any explosive substance, liquid; etc., not properly put up, and other matter likely to entail risk or injury to the ordinary contents of the mail, will be sent to the Dead Letter Office, Ottawa.

Glass in any form is also inadmissible, except eye-glasses, spectacles and microscopic slides, which properly put up and prepaid at parcel post rate or 5th class matter rate.

No immoral publication, and no letter or post card bearing injurious words, devices, etc., can be forwarded through the mails.

Letters containing gold or silver money, jewels or precious articles, or anything liable to customs duties, cannot be forwarded by post to any of the Postal Union Countries, except to the United States.

For guiding vessels into Argyle Harbor. Shows a white light towards harbour; red seaward.

GULL LEDGE BUOY, lat N. $43^{\circ} 37' 0''$, lon W. $65^{\circ} 54' 50''$. A conical iron buoy, painted red, moored in 7 fathoms of water, S. W. from Gull Rock Ledge. From the buoy Fish Island lighthouse bears N. $5\frac{1}{2}$ miles; and Whitehead Light, N. E. by E. $3\frac{1}{2}$ miles.

TUSKET RIVER, Big Fish Island, south-west point, lat $43^{\circ} 42' 10''$ N. lon $65^{\circ} 57' 10''$ W., two fixed white catoptric lights, horizontal, 8 yards, apart, visible 12 miles, 50 feet high, white square wooden building, height 23 feet. Visible seaward; in windows each end of a dwelling house.

SEAL ISLAND, south point, $\frac{1}{2}$ mile from shore lat $43^{\circ} 23' 34''$ N., lon $66^{\circ} 0' 52''$ W., fixed white light, dioptric, 2nd order, visible 18 miles, 98 feet high, white octagonal building, height 60 feet. The Blonde Rock lies S. by W. $3\frac{1}{2}$ miles from light house. Between this Rock and the Island there are some dangers, the ground is rocky throughout, and large vessels ought not to attempt passing between them. A fog whistle near light house, during fogs and snow storms, sounds in each minute a blast of 5 seconds duration, and after an interval of 5 seconds gives another blast of 5 seconds, with an interval of 45 seconds. Life-boat station.

BLONDE ROCK, an automatic whistling buoy has been placed in 16 fathoms water about $\frac{1}{2}$ mile S $\frac{1}{2}$ E from the Rock. Black iron buoy, 10 inch whistle.

PEASES ISLAND, on the south point of Peases Island, one of the Tusket Islands, Yarmouth County, Nova Scotia, lat $43^{\circ} 37' 35''$ N., lon $66^{\circ} 1' 40''$ W. The main or sea light is revolving catoptric, showing alternately red and white, each color visible for 15 seconds, with intervals of 45 seconds between the flashes. It is elevated 56 feet above high water mark, and in clear weather should be seen 12 miles from all points of approach from the southward, and also through the Schooner and Ellenwood Passages. A fixed red catoptric light is shown from a window in the tower, 16 feet below the main light. It is intended to mark the channel between the two dangers known as the Old Man and Old Woman Rocks, and is, therefore, visible between the bearings W. by N. $\frac{1}{2}$ N., and N. W. by W., and in no other directions. It should be visible 4 miles. The tower is a wooden building, painted white, and consists of a square tower 42 feet high from base to vane on lantern, with a keeper's dwelling attached. Hand horn answers signals from vessels.

INDIAN ROCKS WHISTLING BUOY, in 10 fathoms S westward of rocks, lat 45° 54' 50" N., lon W. 62° 49' 10". Red iron buoy surmounted by a 10 inch whistle. Whistle sounded by action of the waves. From the buoy, Bell Point bears N. by E. $\frac{1}{2}$ E., and Wood Island Light E $\frac{1}{4}$ S.

POINT PRIM, S. E. extremity of Hillsborough Bay, 100 yards from the point, lat N. 46° 3' 10", lon 63° 2' W.; fixed white catoptric light, 68 feet high, visible 12 miles. White, circular brick building, covered with shingles, white dwelling near by. Bell-buoy on E. side of channel, black buoy on W. side $2\frac{1}{2}$ miles N. by E. $\frac{3}{4}$ E. from bell buoy, harbourward.

ORWELL HARBOUR, at Brush Wharf, lat 46° 9' 6" N., lon W. 62° 52' 50", fixed red catoptric, 28 feet high, visible 8 miles. White, square wood building, 22 feet high. Light shows S. W.

FITZROY ROCK BELL-BUOY, in $4\frac{1}{2}$ fathoms, west of shoalest part, lat N. 46° 7' 17", lon 63° 6' 8" W. Red iron buoy surmounted by bell. This buoy is $4\frac{1}{2}$ miles N. N. E. from Point Prim can buoy.

HASZARD POINT, front range, on the point, Bellevue farm, 35 feet back from shore, E. side of entrance to Charlottetown Harbour. Lat N. 46° 11' 50", lon 63° 4' 5" W., fixed red catoptric light, 45 feet high, visible 8 miles. White, with brown roof, square, wood building, 47 feet high. Maintained during general navigation and whenever winter steamer is running to Charlottetown.

BACK range, in rear of Bellevue farm buildings, 2,244 feet N. E. $\frac{1}{4}$ N. from front light; fixed red catoptric light, 125 feet high, visible 12 miles; white, with brown roof, square wood building, 47 feet high. Lights visible over a small arc on each side of alignment. Alignment can be

taken off Point Prim and followed in N E $\frac{1}{2}$ N with nowhere less than 5 fathoms, passing W. of Fitzroy Rock bell buoy and E. of St Peters spit buoy until Brighton Beach range lights are brought into one.

BLOCKHOUSE POINT, at W. side of entrance to Charlottetown Harbour. Lat $46^{\circ} 11' 36''$ N., lon $63^{\circ} 7' 28''$ W.; fixed white catoptric light, 56 feet high, visible 12 miles; white, square wood building, with dwelling attached.

BRIGHTON BEACH, front range, on N. W. extremity of Hon G. W. Howlan's property, E. side of N. river. Lat $46^{\circ} 14' N$, lon W. $63^{\circ} 8, 20''$, fixed red catoptric light, 41 feet high, visible 7 miles. White skeleton tower with slatted face, brown iron lantern, red diamond inside facing channel. Maintained during navigation and whenever winter steamer is running to Charlottetown.

Back range, on old Asylum grounds, 1275 feet N. from front. Fixed red catoptric, 77 feet high, visible 9 miles. White, skeleton tower with slatted face, brown iron lantern, red diamond inside facing channel. Lights visible over a small arc on each side of alignment.

Alignment to be taken where it intersect Haszard's Point alignment, about $\frac{1}{2}$ mile S. of St. Peter's Spit Buoy, and followed due north to Causeau Point, where the course up the harbour can be judged by the town lights.

ST. PETERS ISLAND, on S. side of Island, Hillsborough Bay. Lat N. $46^{\circ} 7' 20''$, lon $63^{\circ} 11' 35''$ W., occulting white light, dioptric, 70 feet high, visible 14 miles. Light visible 30 seconds, eclipsed 6 seconds. White square wood building, 38 feet high. Visible from all points of approach except where obstructed by the high ground of St. Peter's Island.

LEARD'S RANGE, CRAPAUD, west end of bridge, at head of harbour. Lat N. $46^{\circ} 13' 15''$, lon. $63^{\circ} 29' 10''$ W. Fixed white catoptric light, 41 feet high, visible 6 miles. White, with red diamond on side facing channel, square, wood building, 38 feet high. Light visible from all points of approach.

Inner range light, about $\frac{1}{2}$ mile N. from outer one. Fixed white catoptric light, 60 feet high, visible 6 miles. Shown from dormer window of a house. Day beacon of slatwork, 20 ft. high by 12 wide, painted white, shows above ridge of house. To enter Crapaud Harbour from the Strait of Northumberland vessels should bring the Leard's range lights into alignment and keep them in one on a N. course until the lights of Wright's range are in alignment, when they should follow this range N. W. $\frac{1}{2}$ N. until the red light in Palmer's wharf is in alignment with the front light of Leard's range. These two in one will lead in from the black buoy at the entrance to the dredged cut, through the out to the wharves N N E, but strangers entering at night are advised to anchor in the road at this last described turning point near the black buoy, as they will be in good anchorage inside Tryon Shoals, while it is not safe to attempt the dredged cut at night.

TRYON SHOAL WHISTLING BUOY, in $5\frac{1}{2}$ fathoms, off south extremity. Lat. N. $46^{\circ} 8' 55''$, lon. $63^{\circ} 31' 48''$ W. Brown iron buoy with "Tryon Shoal Buoy" in white; surmounted by 10 inch whistle. Left to star-board going up strait to North Westward.

From the buoy Crapaud Chapel N. E. $\frac{1}{2}$ E. $5\frac{1}{2}$ miles, just open of range light on point and Carleton Point N. N. W. $\frac{1}{2}$ W. $9\frac{3}{4}$ miles just open of C. Traverse.

SEA COW HEAD, lat. N. $46^{\circ} 19' 10''$, lon. $63^{\circ} 48' 25''$ W. Fixed white catoptric, visible 15 miles. White, octagonal, wood building, white dwelling near by.

INDIAN POINT, E. edge of shoal, on S. side of channel, in Bedeque Bay. Lat. $46^{\circ} 22' 50''$ N., lon. $63^{\circ} 48' 45''$ W. Fixed white catoptric with green sector, 48 feet high, visible 13 miles. White octagonal wood building on a circular stone pier. Green between E. by N. $\frac{1}{2}$ N. and E. S. E. over Miscouche Shoals only.

SUMMERSIDE, railway wharf, Bodeque Bay, fixed red in line of range, white in harbour, square tower on roof of railway freight shed.

Back range, $\frac{3}{4}$ mile E $\frac{1}{2}$ S from front light, fixed red, 65 feet high, white square wood, open frame work, boarded in front and surmounted by a red lantern.

After Indian Point light is abeam, haul in E. by S. until range lights are in one, and keep alignment up to railway wharf.

CAPE EGMONT, on point, lat. $46^{\circ} 24' 20''$ N., lon. $64^{\circ} 7' 45''$; fixed red catoptric, 72 feet high, visible 10 miles. White square wood building, 45 feet high, with dwelling attached.

WEST POINT, on Sand Beach, lat. $46^{\circ} 37' 30''$ N., lon. $64^{\circ} 23' 20''$ W. Red and white catoptric light, revolving $22\frac{1}{2}$ secs. One red and three white flashes in $1\frac{1}{2}$ minutes. Visible 13 miles. Broad red and white horizontal bands, square, wood with dwelling attached, 67 feet high.

West Point whistling buoy, painted red, in 13 fathoms water, $\frac{3}{4}$ mile W. of the middle of the outer shoal.

BIG MIMINEGASH, 500 feet south of breakwater, lat $46^{\circ} 53'$ N., lon W. $64^{\circ} 13'$. Fixed red and white catoptric light; 30 feet high, visible 5 miles. Lantern on a mast with white shed at base. Shows red from N. E. round through E. to S. covering Miminegash Reef, and white from S. to S. W. by W. which includes line of range. Vessels N. of reef bearing westward will be clear of it when red disappears.

Rix's Point, 1 mile S $\frac{1}{2}$ W. from front light; fixed white catoptric light, 45 feet high. Lantern on a mast with white shed at base. Shows over a small arc on each side of the line of range. These lights in line lead to the outer end of N breakwater.

NORTH POINT, on point, lat N. $47^{\circ} 3' 46''$, lon $63^{\circ} 59' 10''$ W., white catoptric, revolving one minute; height 80 feet, visible 14 miles. White octagonal, wood, surmounted by a red iron lantern, dwelling near by.

ST. PETERS.—Two range lights, white, catoptric. Buildings white square wood. Outer 18 feet S. W. from outer end of breakwater. The back range light 1458 feet S. by W. from the front light. Buoys indicate best channel. Lat N. $46^{\circ} 26' 40''$, lon W. $62^{\circ} 44' 50''$.

SAVAGE HARBOUR.—Two range lights, white catoptric, shown from lanterns on masts with brown sheds at base. Outer light on McEachren's farm on inner shore of harbour, lat N. $46^{\circ} 25' 40''$, lon W. $62^{\circ} 48' 30''$. Lights in range lead to mid-channel buoy outside bar. Vessels open the lights on starboard bow, after passing buoy, until inner fairway buoy is reached, where channel leaves range. Only 5 feet water on bar at low tide. Outer light liable to be moved.

TRACADIE.—Two range lights, red lat N. $46^{\circ} 25' 35''$, lon W. $63^{\circ} 2' 30''$. Outer light on beach W. side entrance 1800 feet back from shore line. Open square frame work. Back tower, white, square wood 28 feet high, 1200 feet S S. W. from front. In one, lead in about S. W. by W. past the buoys, leaving the buoy outside bar on on starboard, buoy inside bar on port hand. Not more than 5 feet water on bar. Positions of both towers liable to be changed to suit the shifting of the channel.

COVE HEAD.—Two range lights, showing white lights from lantern hoisted on masts, lat N. $46^{\circ} 26' 10''$, lon. W. $63^{\circ} 8' 45''$. Front light close to edge of sand beach at entrance to harbour. Back light 600 feet from front.

NORTH OR GRAND RUSTICO.—Two range lights. Back light, west side of entrance to harbour, lat N. $46^{\circ} 27' 42''$, lon W. $63^{\circ} 17' 15''$, white square wood with dwelling attached, 35 feet high, shows fixed white light, catoptric, 40 feet above high water mark. Front range light 225 feet from main light, shows fixed red light from lantern hoisted on mast, 22 feet above high water. The alignment leads to black can buoy outside bar in 13 feet water, after passing which vessels must open lights leaving them on starboard side to clear breakwater on N. side of entrance to harbour. A small spar buoy marks outer extremity of breakwater, of which the part above water has been carried away. Outer light liable to be moved to suit channel.

NEW LONDON—Two range lights visible over 110° between Sim's Point and sand hills on E. side of harbour. In range they show the entrance to the harbor. Outer range light liable to be moved to suit shifting of the channel. The outer light is a white square wood, open framework below, brown 21 feet high, showing a white catoptric light, elevated 24 feet above water. The back light is on beach 1500 feet S. W. of main light, building white square wood with dwelling attached. Iron lantern brown, height 35 feet from base to vane. Shows a fixed red catoptric light, elevated 45 feet above high water. Lat N $46^{\circ} 31' 10''$, lon W. $63^{\circ} 28' 52''$.

DARNLEY POINT, lat N. $46^{\circ} 34' 0''$, lon W. $63^{\circ} 39' 0''$. Two range lights, red, catoptric. Both buildings, white, square, open frame tower, slatted, facing line of range. Front range near shore line $6\frac{1}{2}$ cables south-easterly from C. Aylesbury. Back range 1341 feet S. W. by S. from front range light. Alignment leads to black can buoy at Eastern Passage over bar at entrance to Malpeque harbor. Vessels entering keep the alignment until they bring the Fish Island lights in one.

FISH ISLAND, lat N. $46^{\circ} 34' 52''$, lon W. $63^{\circ} 42' 17''$. Entrance to Malpeque or Richmond Bay, white square wood with dwelling attached, on inside of island, 46 feet base to vane, fixed white catoptric light, 50 feet high. Front range 1200 feet S. E. by E $\frac{1}{2}$ E. from main light, open frame work, lantern white, fixed white light 18 feet high. The main light is a sealight, the smaller one in range with it shows the channel over the bar with 15 feet, and ranging with the fairway buoy inside the bar, whence the channel is marked by the harbor buoys. There is a 13 foot spot between the Eastern Passage buoy and the fairway buoy.

DARNLEY BASIN.—Two range lights, green, catoptric, visible 3 miles. Front range, west side of Darnley Basin. Back range, 380 ft. S. by W. front light. Both open frame work, lanterns white.

LITTLE CHANNEL—Two range lights, fixed white, lat N. $46^{\circ} 40' 0''$ lon. W. $63^{\circ} 52' 40''$. Outer light on Conway Inlet, N. side, white square wood, with kitchen attached 30 feet base to vane, light fixed white catoptric 26 feet above water. Front range 200 feet from main light, open framework, lantern white, fixed white light, catoptric, 16 feet high. In one, lead through channel with 5 feet at entrance to harbour. There is a ballast heap in the alignment at the point of the

S. sand hill, to pass this the front light must be opened to N. Outer light liable to be moved to suit the change in the channel.

SANDY ISLAND.—Coast light S. W. part of island, entrance to Cascumpec, lat N. $46^{\circ} 48' 22''$, lon W. $64^{\circ} 2' 20''$. White square wood with dwelling attached, 41 feet base to vane, fixed white catoptric light, 45 feet above high water, visible 12 miles.

SAVAGE ISLAND.—Two range lights, white catoptric, front range on N E part of island, 35 feet high, visible 5 miles. Back range, 900 feet, S W by W $\frac{1}{2}$ W from front light, 45 feet high, visible 5 miles. Both shown from lanterns on mast with hut at base. This range leads to the alignment of the red range, Northport.

Northport Range Lights. The masts heretofore in use have been substituted by two open skeleton lighthouse towers. Each tower is an open framed wooden building surmounted by a square wooden lantern. and has its side facing the channel slated to make it a more conspicuous leading mark. The whole building is painted white. Both lights are fixed red and should be visible 3 miles on the line of range. The front tower stands on a bank 500 feet W. of Railway wharf. It is 29 feet high from the ground to the vane of the lantern. The light is 31 feet above high water. Lat N. $46^{\circ} 48' 16''$, lon W. $64^{\circ} 3' 6''$. The back range tower stands 1125 feet W. $\frac{1}{2}$ N from the front one and is 41 feet high and the light is elevated 42 feet above high water mark.

Vessels entering Cascumpec harbour keep the Savage Island range lights in one until the Northport range lights are nearly closed when they should change their course for the Northport range, being careful not to overrun the line of range, as the channel at the point of intersection is narrow and the tide strong. The Northport range leads in to the wharf clear of all obstructions.

BIG TIGNISH.—Two range lights. Back range light on beach at inner end of N. breakwater pier. Lat N. $46^{\circ} 57' 35''$, lon W. $63^{\circ} 59' 20''$. Building white square wood, with a black horizontal band 33 feet high. Fixed white catoptric 35 feet high, visible 11 miles. Front light on outer end of N. breakwater pier 620 feet S. E. $\frac{1}{2}$ E. from main light. Fixed red light is shown from a lantern on a mast with white shed at base. Light elevated 18 feet above high water mark, and visible 5 miles. These two lights in range guide N. W. $\frac{1}{2}$ W. between the breakwaters.

HIRTLE'S ACME CONDITION POWDER

The best Condition Powder ever put on the market. The ingredients which make up this Compound are guaranteed strictly pure. As a flesh producer it has no equal in the world. It is an infallible cure for all ordinary Horse and Cattle Affections. It means money in the pockets of farmers and everybody who will feed it to their animals. Give it a trial and you will be convinced of its merits. Sold by all Druggists and General Dealers. 25c. a package. Manufactured by

COLLEGE AND SEMINARY OF ST. FRANCIS XAVIER.—Established in the town of Antigonish. Rector, Rev. Dr. A. M. D. Thompson; Professors, Rev Alex. McDonald, D. D., Rev. D. Gillis, Ph. D., R. Macdonald, D.D., Rev La Macpherson, Rev D. McAdam, Messrs T. F. Horrigan, M.A., D. McPherson.

THE TRAPPIST MONKS, at Tracadie, had a flourishing establishment, destroyed by fire, but now in course of reconstruction. The Monks are principally natives of Belgium. Here also, there is a Convent of the Trappistine Sisters, all natives of the place, and generally of French and Scotch origin.

THE SISTERS OF THE CONGREGATION OF NOTRE DAME, of Montreal, have flourishing academies for female education of the highest order at Arichat, Antigonish, Pictou, New Glasgow, West Arichat, Sydney, Port Hood, New Glasgow and Mabou. Besides, there are throughout the diocese several academies, and superior and common schools, partly supported by government, and partly by contributions of the people. There are also superior schools at Stellarton, Little Glace Bay, North Sydney, and Harbour Bouche, conducted by the Sisters of Charity.

Dr. Herrick's Liver Pills.

This Medicine without a doubt has made more wonderful cures than ten other medicines combined.

DR. HERRICK'S LIVER PILLS

have stood the test of sixty-three year's investigation, and to-day stand at the head as positively curing SICK HEADACHE, INDIGESTION AND ALL IMPURITIES OF THE BLOOD. FOR TONING AND BUILDING UP THE WHOLE SYSTEM THEY HAVE NO EQUAL. Try them, reader, you are not experimenting with an unknown medicine, but simply following those who have used DR. HERRICK'S PILLS for years, and know of their great curative powers.

Sample for a Cent if you mention this Book.

RENNIS

Pain - Killing Magic Oil.

Is another one of our grand preparations. It is invaluable for RHEUMATISM, COLDS, SORE THROAT and PAINS AND ACHES OF ALL KINDS. RENNIS PAIN KILLING MAGIC OIL is safe and clean to use, and is not of an oily nature. Try it and convince yourself as thousands have done that RENNIS MAGIC OIL gives speedy relief and a sure cure. Sold at Druggists and General Stores.

ment and School Law. G. J. Miller, Esq., *Lecturer on History of Education.*

INCORPORATED ALUMNI—Prof. Howard Murray, *President.* R. H. McIlreith, *Secretary.* W. D. Cameron, *Treasurer.*

SCHOOL FOR THE BLIND.

This Institution provides for the education and training of blind persons of either sex throughout the Maritime Provinces. Pupils from the Province of Nova Scotia between the ages of ten and twenty-one are admitted free of all charge. The school is open to the public on Wednesday of each week, at 3 p.m. C. F. Fraser, *Superintendent.*

The Superintendent of the Institution is anxious to obtain Names, Ages, and Post Office Address of all Blind Persons in the Maritime Provinces. Clergymen and Physicians are in a position to supply this information, and will confer a favour by so doing.

DEAF AND DUMB INSTITUTION.

This Institution which has been thirty-six years in operation is not an *Asylum*, but a *School*. It provides for the education of the deaf and dumb of the Maritime Provinces. Pupils from the Province of Nova Scotia between the ages of *eight* and *eighteen*, are admitted free. Both the Sign System and the Oral Method are employed in this School. *Principal*, James Fearon.

President, Hon D. McN Parker, M.D. *Secretary*, Rev. President Forrest, D. D. *Treasurer*, Andrew Mackinlay, Esq. Hon Provincial Secretary, J. F. Kenny, Wm. Tobln, M.D., H. H. Woodbury, D.D.S., C. C. Blackadar, Geo E. Faulkner, Hon L. G. Power.

The Principal of the Institution will feel thankful to clergyman, physicians or others who can give him the names, ages and Post Office address of all uneducated deaf and dumb persons in their neighborhoods, in order that such may be brought within the reach of instruction.

GRAND LOYAL ORANGE LODGE OF NOVA SCOTIA.

SYDNEY COAL.

This Celebrated Coal, mined by the General Mining Association, Ltd., of London, G. B., at North Sydney, Cape Breton, has long been generally known under the name of Sydney Coal, and this name is registered as a Trade Mark. To guard against deception from other coals being sold with the prefix of "Sydney," or as "Sydney Coal," a Certificate is issued with each cargo of Genuine Sydney Coal Shipped.

"Sydney Coal" stands at the head of all Nova Scotian and Cape Breton Coals in its reputation for House Use. It is also an excellent Steam Coal.
